

Combo Hitch

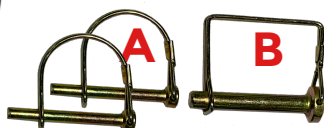

A versatile towing accessory for home and garden equipment

Installation Instructions v.6.1

FASTENERS

- A 2) 1/4" x 2 3/4" PTO Spring Clips
- B 1) 3/8" PTO Spring Clips

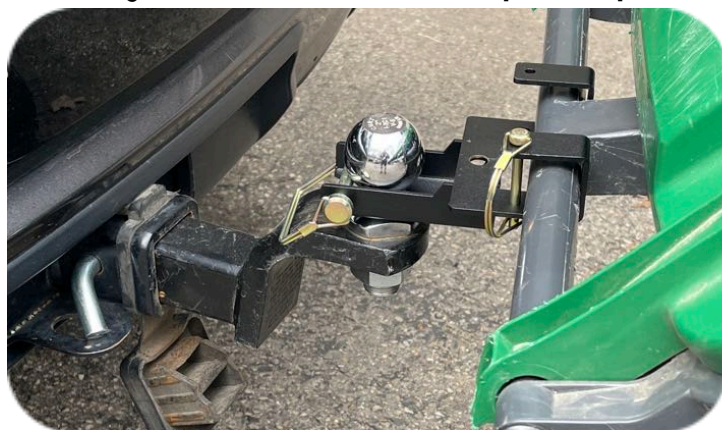

Scan for
CH Installation Video >

Step 1- When ready to use, slip the ball mounting base under your trailer ball and pin in place To mount your Garbage Hook to your receiver hitch simply insert the 3/8" PTO Spring Clips thru the ball mounting base and under your 1-7/8" or 2" ball. NOTE: 2" Ball works best

Step 2- To secure the cans handle to the hook place the PTO pin thru the two holes

When hauling trash cans we suggest height between 14"- 21" allowing for approximately 30% of the cans weight to be resting on the support arm

Haul hitch pin or handled lawn and garden tools

Works with all of these plus so much more!

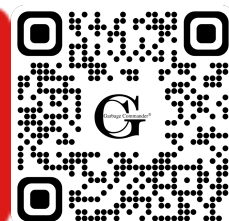

Warnings:

- Keep all nuts tightened • Do Not exceed 15 MPH, or 75 lbs • Do Not carry passengers • Do Not use on public roads
- Turn off vehicle and put in park before attaching your Garbage Hook.

Warranty:

We understand that sometimes products may not meet your expectations which is why we offer a warranty period during which you can return the product for a full credit or replacement. Just fill out the form and we can issue you a return label or refund.
